

## GoPM<sup>2</sup> – GBMC's Open PM<sup>2</sup> Offering

Global Business Management Consultants (GBMC) has over 10 years in the PM<sup>2</sup> Project Management Methodology at the European Commission. GBMC has extensive experience in providing training, coaching, consulting and methodology deployment in private and public organizations. PM<sup>2</sup> courses are provided in English, French, Dutch and German.

### GoPM<sup>2</sup> Essentials

This two-day Project Management seminar is designed to provide a focused introduction to the PM<sup>2</sup> Methodology along with an overview of all the core PM<sup>2</sup> elements and plans. Over the two days, a number of exercises and workshops will provide hands-on experience of both core Project Management tools and techniques and key PM<sup>2</sup> templates.

Having completed this seminar, you will appreciate the benefits of using a project management methodology, be more effective at managing (or participating in) projects, and be familiar with the PM<sup>2</sup> Governance model and its roles, responsibilities, processes, templates and mindsets. You will be in a position to start implementing some of the most essential Project Management best practices, tools and techniques.

### GoPM<sup>2</sup> Advanced

This two-day Advanced PM<sup>2</sup> seminar is designed for those who are already familiar with the PM<sup>2</sup> Methodology.

The seminar builds on the foundations of the PM<sup>2</sup> Essentials seminar and deals with more advanced topics of PM<sup>2</sup> such as: in depth risk management (qualitative and quantitative); issues identification, analysis and resolution; Project control using Earned Value Analysis; Developing and implementing Transition and Business implementation plans.

The seminar is delivered over two days with lectureries and workshops that will provide the participants with the skill sets to allow them implement PM<sup>2</sup> comprehensively in their organisations.

### GoPM<sup>2</sup> Agile

This two-day Agile Project Management seminar is designed to help participants understand how they can incorporate agile practices into their projects, based on the Agile PM<sup>2</sup> Model. The Agile approach embraces change and provides mechanisms which allow project teams to better deal with uncertainty and deliver projects in an iterative and incremental way.

The seminar presents the internal and external factors that need to be considered for the successful integration of Agile practices into an organization's project management culture and prepares participants to successfully apply key Agile PM<sup>2</sup> techniques in their projects.

### GoPM<sup>2</sup> Primer

Are you interested in learning more about the PM<sup>2</sup> Methodology and you are already a certified Project Manager (e.g. PMP, PRINCE2, IPMA)? Then this seminar is for you.

This is a one-day condensed seminar, which presents all the elements of the PM<sup>2</sup> Methodology (see also the GoPM<sup>2</sup> Essentials seminar description).

Operations and Offices in Asia-Pacific, Europe, Middle-East, North and South America.
